

OCCUPATIONAL THERAPY

Individual Occupational Therapy sessions are designed to improve sensory processing, motor development, social interaction and self-confidence to maximize a child's independence with play, learning and daily life skills. Therapy is tailored to meet the needs of each child and their family in our unique and interactive sensory room.

OCCUPATIONAL THERAPY HELPS TO IMPROVE:

- Fine and Gross Motor Skills
- Motor Planning Skills
- Core Stability and Strengthening
- Visual-Motor Integration Skills
- Visual Perceptual Skills
- Handwriting Skills
- Keyboarding Skills
- Sensory Processing and Sensory Integration Skills
- Academic and Cognitive Skills
- Self-Care Skills
- Play Skills
- Social Skills
- Parent and Caregiver Education and Training
